SYNOPSIS

Petitioner is filing the instant Special Leave Petition against the impugned final judgment and order dated 09.12.2019 in WP(C) 11394/2019 passed by the High Court of Delhi at New Delhi.

It is respectfully submitted that while passing the impugned order, the High Court has failed to appreciate that presently total number of twitter handles in India are around 35 million and total number of Facebook accounts are 350 million and experts says that around 10% twitter handles

(3.5 million) and 10% Facebook accounts (35 million) are duplicate/bogus/fake.

The Court also failed to appreciate that there are hundreds of fake twitter handles and bogus Facebook accounts in the name of eminent peoples and high dignitaries including the Hon'ble President of India, Vice President of India, Prime Ministers of India, Chief Ministers, Cabinet Ministers, Chief Justice of India and the Judges of the Supreme Court and High Courts. These fake twitter handles and Facebook accounts use real photo of constitutional authorities and eminent citizens. Therefore, common man rely upon the messages published from these twitter handles and facebook accounts.

The Court also failed to appreciate that fake news is the root cause of many riots including the recent riots in Delhi. Fake accounts are used to promote casteism, communalism, regionalism, linguism, radicalism and separatism, which endangers fraternity unity and national integration.

Political parties and candidates use fake social media accounts for self-promotion and image building and to tarnish the image of opponent political parties and contesting candidates, especially during the elections.

Court also failed to appreciate that many people use fake twitter handles and Facebook accounts for personal interests such as gaining financial income from one person and blackmailing his opponents.

Right to know is integral part of Article 19 and exposure to accurate information is a necessity for electors to make an informed choice, but, fake news has tendency to influence this choice in negative manner. Publication of fake news involves use of black money, under-reporting of election expenses and indulging in other kinds of malpractices. The influence of

black money also has the potential to result in an imbalanced election between people of different financial statures. Thus, in order to have free and fair elections, which is a basic dictum of democracy, level playing field is paramount and this cannot be achieved without weeding out fake social media accounts.

Fake news and paid news plays a vitiating role in the context of free and fair elections and there is gap, therefore, executive should ascertain the feasibility of amending the IPC, RPA and IT Act to provide for publishing or abetting the publication of fake news and paid news so as to further or prejudice prospects of any candidate, as an electoral offence under Chapter III, Part VII of the RPA, 1951, with punishment of a minimum of 2 years of imprisonment. But, Executive has not taken appropriate steps in this regard till date. Similarly, the ECI, which has been conferred plenary power under Article 324, has also not taken appropriate steps in this regard. Hence, this Hon'ble Court is the only hope of citizens and may issue a writ, order or direction to curtail paid news and fake news to ensure free and fair election in spirit of Article 324 of the Constitution of India.

Free and fair election is the foundation of our democracy. However, this can only be achieved when the corrupt powers of black money and its influences are removed from electoral process. According to study conducted by the Election Commission of India, during the State Assembly elections held between 2011-2013, there were 1987 cases wherein notices for paid and fake news were issued to contesting candidates and 1727 cases wherein the practice of paid and fake news being prevalent was confirmed by the District Level Committees appointed by the ECI to control paid and fake news.

Paid news and fake news is a widespread phenomenon during election campaigns. This phenomenon of 'paid news' and its equivalent, political advertising being presented as news are issues that cannot be treated separately. The Press Council of India in its report on paid news had recommended that Paid News and Fake News should be declared to be corrupt practice. General public attaches great value to the news reports as distinguished from advertisements and paid news by political parties and candidates. This makes news items a very important source of information concerning political parties and candidates. But, paid news and fake news only masquerades as news and in actuality, are advertisements under the garb of news items. Thus, they totally mislead the electors. This raises potential concerns relating to the veracity of the claims and possible defamatory consequences of such news items and advertisements.

India's democratic setup is paradigm for many countries in the world due to its remarkable success over the past seven decades. The heart of India's democratic system witnesses regular elections with the participation of the largest electorate in the world. In order to safeguard the core values of free and fair elections in this dynamic scenario, it is important to have a just unbiased electoral process with greater participation. However, there are certain challenges and issues that electoral system has faced over the years. Trust and confidence of citizens in electoral system can be affected if these challenges remain unattended. Thus, keeping in view these difficulties the Law Commission of India after conducting extensive study and research recommends certain changes that need to be taken up expeditiously to amend certain provisions of law. Taking forward a step in this direction, the Law Commission have made several electoral proposals to remove the

glaring lacunae in the law. Many of these proposals have been already put forth in its 244th and 255th Report have remained unresolved. Some of the proposals pertain to areas, which have not been taken up previously by the Commission but arose due to implementation of certain laws or on the directions issued by the Courts. Petitioner sincerely believes that weeding out fake news will prove to be extremely useful in addressing the existing issues and challenges.

- A.** Because the High Court has failed to appreciate that presently total number of twitter handles in India are around 35 million and total number of Facebook accounts are 350 million and around 10% twitter handles (3.5 million) and 10% facebook accounts (35 million) are duplicate, bogus or fake.

Fake social media accounts are used to promote casteism, communalism, regionalism, linguism, radicalism and separatism, which endangers fraternity, unity and national integration.
- D.** Because the High Court has failed to appreciate that political parties and contesting candidates not only use fake social media accounts for self-promotion and image building but also to tarnish the image of opponent political parties and contesting candidates, especially during the elections.
